Last printed 10/18/2004 8:43 AM   *faxed to 914-949-3416*

On Monday, Oct. 18, 2004 I reviewed archived files on an archival storage PC at my 75 Water Street office. In the following directory:

C:/ARCHIVES/MAC ARCHIVES/MAC13A/ARCHIVES/!CONFIDENTI//COPYRIG.HT_//NEWSHARE_C//TVS_04-13-/

In that folder are three files:

!CLICKSH.ARE	2,640 KB	ARE File	4/12/1996 3:09 PM
!SERVERS.IDE	1,880 KB	IDE File	4/12/1996 3:10 PM
README	2 MB	File	6/5/1997 10:08 PM

I have just emailed the three files above to patent attorney Steve Hoffberger.   *WPDTL*
The contents of that README file appear below (with emphasis added):

```
---- BEGIN TEXT OF README ----

This Iomega Zip Disk was originally recorded April 12, 1996 at Crocker
Communications in Northampton on a Zip Drive attached to Matt Crocker's Mac
Powerbook. The two .tar files were all that were put on it at that time.
The disk was then sealed in an envelope and the seal was signed by Dave
Oliver and Bill Densmore.
On May 9, 1996, the envelope was given to Mark Gold of Grinnell Dubendorf &
Smith when escrowed documents relating to a sale of the TVS technology from
Newshare Corp. to Clickshare Corp. were executed.
On March 25, 1997, Bill Densmore picked up the sealed envelope from Grinnell
& Dubendorf and Smith when the escrowed sale agreement expired.
On that day, Densmore copied the .tar files to the Macintosh Proforma 636CD
in the office at 75 Water Street, and copied them to the Newshare.com server
in a directory called: ~bill/TVS_04-12-96. Subsequently, Densmore "untarred"
the two files into their constitutent directories and original files.
On May 13, 1997, Densmore FTP'd the untarred directories to the Macintosh
Proforma 636CD in the Williamstown office, then copied the Mac folders to
this Zip disk.
At no time did Densmore alter, add to or delete any files.
The purpose of this exercise was to put the individual programs in a form
which could be readily printed for documentation required in the Newshare
patent application.
